ZETA III-C SPORT-C	590	470	865	590	630	460

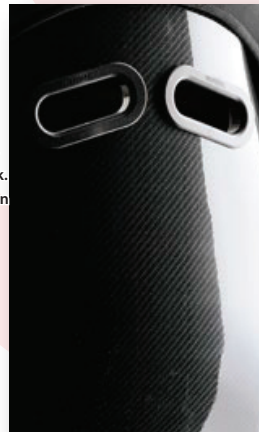

※ ± 5mm dimensional tolerance applies

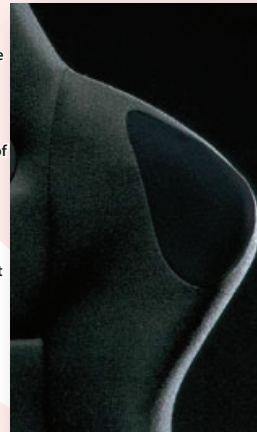

Surrounds the waistline and holds you in by using effective support points such as the shoulder areas. The specialized Urethane material is designed with the perfect thickness for exceptional comfort.

4 types of outer shell materials are available. Carbon Aramid, Super Aramid Black, FRP Silver, & FRP Clear Black. Every shell design is made for proper strength and lightweight characteristics.

Shoulder supports feature a high quality non-slip backskin fabric. The remainder of the seat fabric includes a long lasting, durable cloth that is resistant against fading.

The split design padding effectively distributes the compression of the legs. Made from urethane, this feature enables unobstructed pedal work as well as supports the body from high lateral Gs.

Our objective is to develop your enjoyment of driving through motor sports
